NON-SLIP Folded Corner Clipper Cont.

Cut Half-Square Triangles

Cut two strips, 1/2" wider than finished block. Place strips right sides together. Align markings of Folded Corner Clipper with left side. Trim.

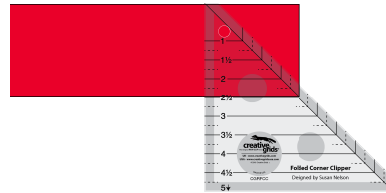

Rotate template and repeat. Sew and press open.

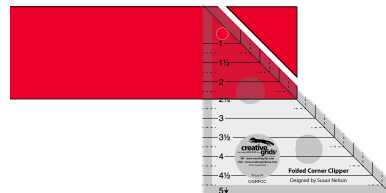

Prepare Bindings

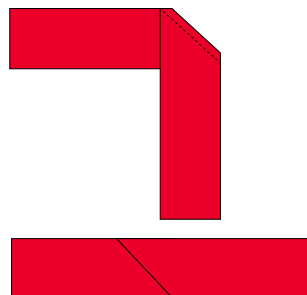

1. Place one strip on top of the other, matching right edges, with both pieces right side up.

2. Align markings of Folded Corner Clipper with lower right corner as shown. Trim.

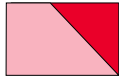

3. Rotate top piece and place wrong side up on the bottom piece. Sew 1/4" seam and press open.

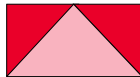

NON-SLIP Folded Corner Clipper

Make Folded Corners quickly and accurately with the Creative Grids® Folded Corner Clipper. No need to draw pencil lines! Since you have to trim the corner anyway, why not trim it first, and use the raw edge as your seam guide? AND... Since the corner was trimmed with a straight edge, it's ready to sew into a Half-Square-Triangle Block!

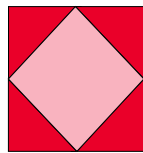

The Folded Corner method is used in a variety of blocks

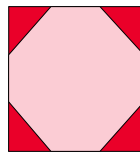

Cornered Rectangle

Flying Geese

Diamond in a Square

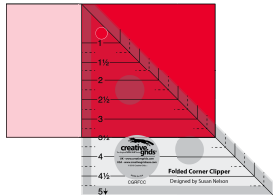

Snowball

Directions for using the Folded Corner Clipper

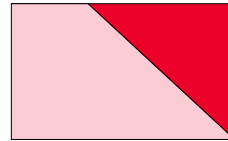

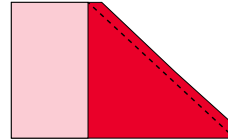

1. Place a square of corner fabric on top of the base fabric, right sides together.

2. Align edges of corner fabric with the markings on the Folded Corner Clipper. Trim away corner triangles with a rotary cutter.

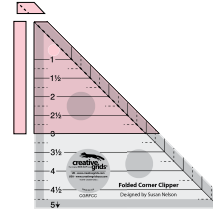

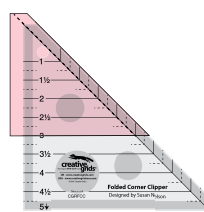

3. The accurately trimmed edge serves as a guide for sewing corner to corner with a 1/4" seam. Press piece open, making a folded corner.

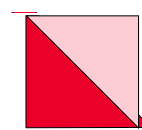

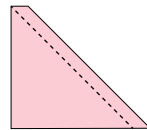

Each Folded Corner has leftover fabric that will make a Half-Square-Triangle Block.

Trim Half-Square Triangle Blocks

Before pressing block, place bottom edge at desired size and align seamline with the Folded Corner Clipper seamline. Trim dog-ear and left edge.

Press open.
