

# Sid

By Angela Walters

Get consistent spacing between quilting lines with Sid.

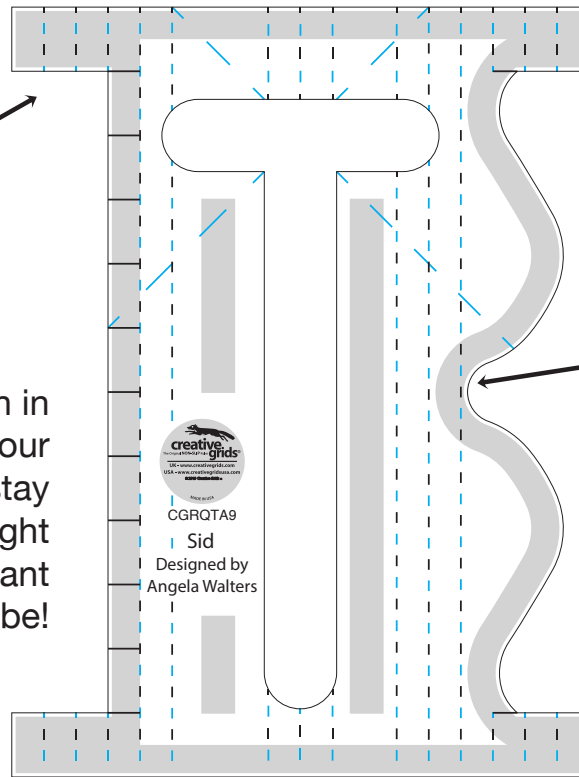

To be used exclusively as gift-with-purchase for customers that purchase this tool. Others available at [www.creativegridsusa.com](http://www.creativegridsusa.com) in the Toolbox.

Quilting with the Sid Ruler

Extends past the quilting foot giving you reference lines on both sides!

Cutout section in center helps your quilting stay straight and right where you want it to be!

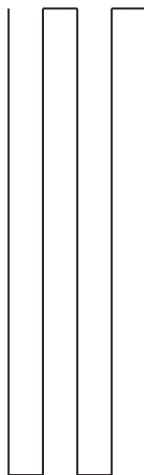

Lots of reference lines to ensure that your quilting stays on track!

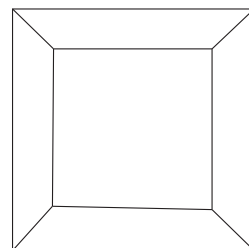

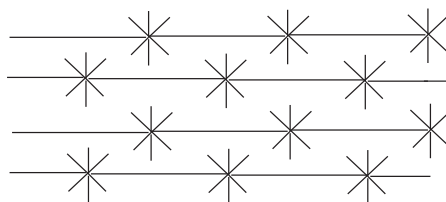

Creative Grids® Grip keeps the ruler in place

Use Sid for:

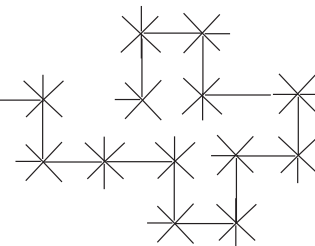

Allover Designs

Easy Piano Key border designs without rotating the ruler.

45° lines for mitered corner designs

A curvy side for an unexpected look!

## How to Quilt Starbursts

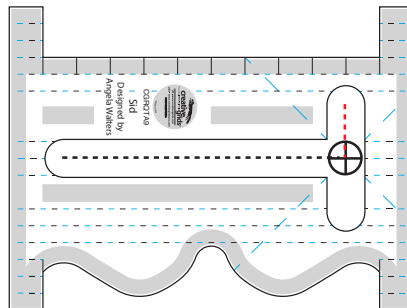

quiltingismytherapy.com

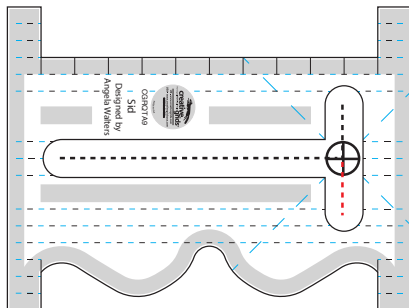

Place your quilting foot inside of the ruler so that it is all the way to one side.

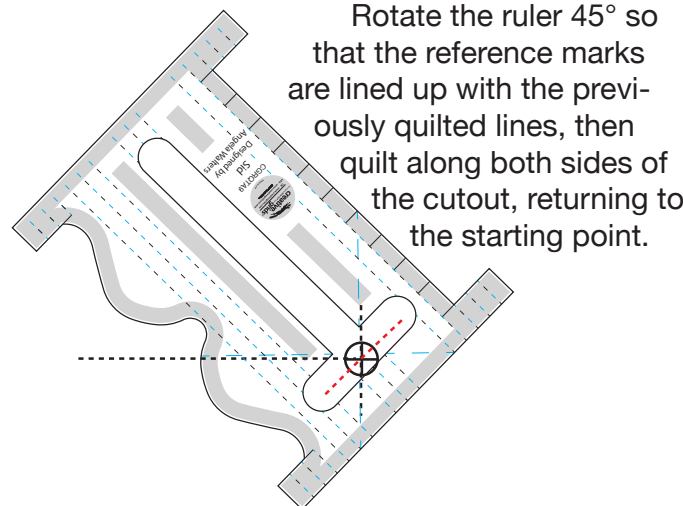

Quilt along the cutout until you reach the other end.

Quilt up along the vertical cutout to the end, then quilt back to the starting point.

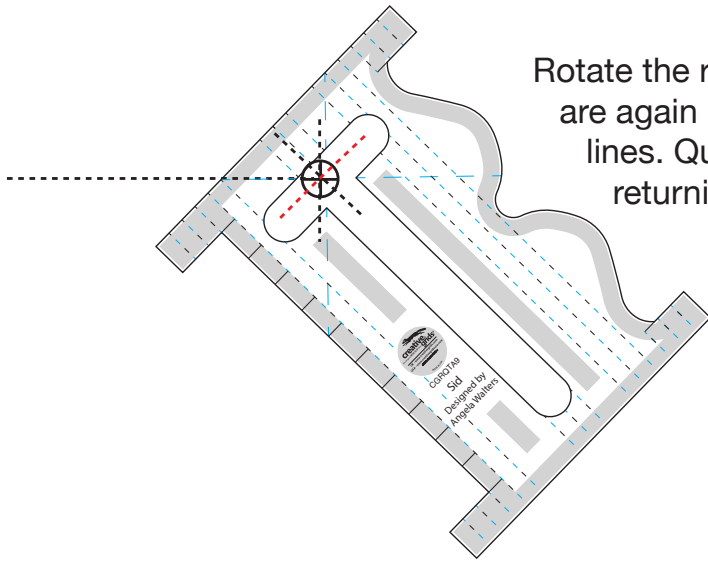

Quilt down, then back to the starting point.

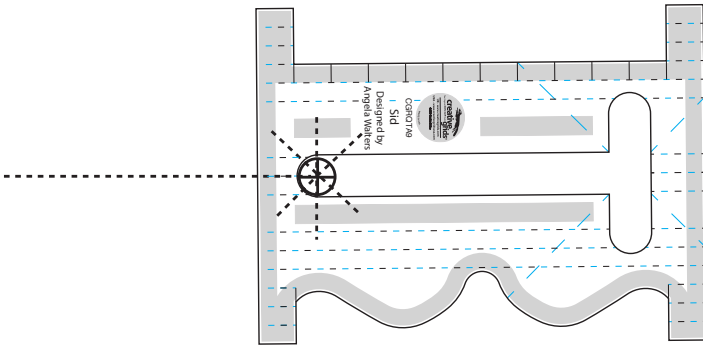

Rotate the ruler 45° so that the reference marks are lined up with the previously quilted lines, then quilt along both sides of the cutout, returning to the starting point.

Rotate the ruler 180° so that reference lines are again lined up with the previously quilted lines. Quilt along both sides of the cutout returning to the starting point.

Rotate the ruler so that it is horizontal and the foot of the machine is at the end of the cutout.

Repeat the steps above, quilting along the cutout and rotating the ruler to create the star-burst shape.
